

13 October 2024

Joint Statement:

Australian Jewish Association, Australian Hindu Association, Iran Novin Party and QLD Jewish Collective

We stand together in a multicultural campaign against the Australian Greens in the forthcoming Queensland State Elections.

The Greens' stance on Hindu and Jewish issues has been consistently divisive and misinformed, fostering hatred and harming social cohesion. Additionally, the Greens have supported recognised terrorist groups who act as proxies of the Islamic Regime of Iran. These policies foster hatred and create harmful divisions within our society, promoting radicalism, extremism and a disregard for human life.

As leading organisations in the multicultural community in Australia, we uphold Australian values, striving for interfaith dialogue, cooperation, and unity. Our shared mission is to build strong, inclusive communities across Australia. We urge the public to consider the implications of voting for the Greens in this state election.
