Campaign against the Australian Greens Party in Queensland State Elections

The Australian Hindu Association (“AHA”) endorses the Queensland Jewish Collective’s (QJC) campaign against the Australian Greens in the forthcoming Queensland State Elections.

The AHA is aware that QJC is a grassroots organisation dedicated to promoting Australian values, democracy and community action. My organisation supports its efforts to combat radicalism and misinformation; and their commitment to fostering a multicultural and inclusive society.

The AHA, as a leading national Hindu organisation in Australia, values the importance of interfaith dialogue and cooperation. The QJC’s work aligns with our own objectives to promote unity, understanding, and social cohesion.

AHA’s logo appears on electoral material produced & distributed by the QJC with our approval.

The Greens are the only Australian political party that has persistently vilified Hindus, Hindu leaders and Hindu organisations. Its divisive and often ill-informed policies, particularly insofar as they relate to minorities such as Hindus, fosters hatred and creates divisions.

AHA stands alongside the Queensland Jewish Collective in informing the public of the dangers of voting Greens this state election.

Yours faithfully

Amendra K Singh

President
